

Dear Valued Midori Customer

End of Life (“EOL”) Notification

We appreciate your use of our MIDORI products.

We would like to inform you that the rotary sensor “CP-16U” series, which has long been favored by our customers, will be discontinued for the following reasons.

【Background of Discontinuation】

- Main sales have shifted to equivalent models, the “CP-2UN” series and “QP-2H” series.
- Significant decrease in demand.
- Difficulty in maintaining prices due to increased component costs associated with small-lot.

【EOL Products】

- CP-16U
- CP-16U-1
- Final order acceptance: End of December 2025
- End of sales: End of March 2026

We sincerely apologize for any inconvenience this may cause and ask for your kind understanding.

We would also appreciate it if you could review and consider your final order quantities accordingly.

If you have any further questions about alternative products, please contact us below address.
overseas@midori.co.jp

Sincerely
MIDORI PRECISIONS CO., LTD.
