

Dear Valued Midori Customer

End of Life (“EOL”) Notification

We appreciate your use of our MIDORI products.

We would like to inform you that the inclination sensor “ESC1000Z” series, which has long been favored by our customers, will be discontinued for the following reasons.

【Background of Discontinuation】

- Transition to successor models such as the high-performance “ESC3000Z” series, the compact and thin “THD2000Z” series, and the waterproof “THD4000Z” series is in progress.
- Significant decrease in demand.
- Difficulty in maintaining prices due to increased component costs associated with small-lot production.

【EOL Products】

- ESC1010ZA
 - ESC1020ZA
 - ESC1030ZA
 - ESC1045ZA
-
- Final order acceptance: End of December 2025
 - End of sales: End of March 2026

We sincerely apologize for any inconvenience this may cause and ask for your kind understanding.

We would also appreciate it if you could review and consider your final order quantities accordingly.

If you have any further questions about alternative products, please contact us below address.
